

Zimbabwe Mission 2005

Most of Christianity is lived within the four walls of the many churches across our great land.

When we think of the words of our great God and Saviour, ministering to the impoverished is as if we are ministering to him.

The City View Baptist Church of Flatbush has identified a great need in the African Country of Zimbabwe and has been sending a team there every summer to work among many orphans and needy children. The church has undertaken the sponsorship of nine orphans who would have fallen by the wayside after primary school.

One of our ladies, Miriam Taitt has carried a burden for these children for the past ten years. One child can be sponsored for less than \$20.00 per month.

Many children go to bed hungry every night. Some come to school hungry and are given glucose to get them through the day. It is not our policy to highlight the poverty of another country for gain but the great need warrants us as Christians to remind others who live in the land of plenty to remember the down trodden. Your gifts are tax deductible and will serve a good cause.

We are seeking to establish an orphanage which has already been given land space. May the Lord direct you towards this need.
